

Lalor Refresh

Arts & Permaculture Project

LALOR
NEIGHBOURHOOD
HOUSE

Rough plan:
transforming a
neglected
corridor in Lalor

-  Fruit Trees
-  Garden beds
-  Murals
-  Art panels
-  Mosaics
-  Activity panels

Ideas only - to be designed with the local community

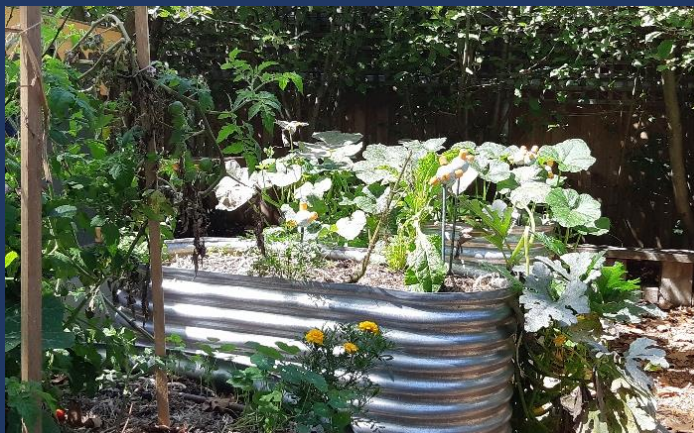

Transforming
a neglected
corridor in
Lalor from
this...

And our front
yard from
this...

To something like this...

Our Artists

Bushra Hasan has extensive experience working with communities and schools to produce murals including an art tram that traversed the streets of Melbourne in 2018. Bushra lives in Whittlesea and has been an active local artist with Multicultural Arts Victoria and the Brotherhood of St Laurence over a number of years.

Our Artists

Ildiko Kormanos offers art classes at LLC and also helped to facilitate artworks for our Multicultural Arts exhibition in the laneway. Ildiko lives locally and has created murals for schools in Thomastown East and in Hungary.

Our artists will transform these walls and fences with a large wall mural and smaller plywood panels along the fence line.

In March 2022, we tested community interest in transforming the area through our Multicultural Arts Festival. Which the community loved!

We used corflute artboards but will install plywood panels to provide hanging space for rotating art exhibitions similar to the idea below but on a larger scale.
