

Lalor Neighbourhood House

## AFTER SCHOOL TUTORING

# Support their schooling and watch their confidence grow

**Lalor Neighbourhood House** offers a friendly and nurturing environment for students to receive high quality tutoring at an affordable price. By supporting students we can help them gain confidence in themselves and their studies.

Each student at **LNH After School Tutoring** is assessed and tuition is tailored to their individual needs.

Tutors will often work with the student's school to create a program that supports them in their class. This helps them address areas that need improvement and gets them ready for their next topic.

As this is one to one tutoring for individuals the focus of each session is flexible and can respond to the student's needs as they arise.

Lalor Neighbourhood House
